February 22, 2021

Dear Valued Customer,

Due to unprecedented price increases incurred over the past several months on virtually all of our products, Plastics Distributors will be increasing prices effective March 1, 2021. Unfortunately, this is in addition to any increases that may have been passed on to you in recent months. The markets are changing weekly in some industries, so it is no longer possible to specify a flat increase percentage in all instances. Most increases will range from 5%- 10%, but some items will have to receive a spot quote based on our stock levels and your purchase history. Stretch film alone has seen a 45% increase since last summer, so if you have not ordered in a few months, you will incur multiple increases at once.

We regret that we are unable to hold a firm increase percentage, and we understand the impact that these increases have on your business, but until the markets stabilize, pricing will be quoted on an order-by-order basis.

If you have any questions or need copies of the increase notices from our various manufacturers, please feel free to contact your sales rep or the PDC office staff.

Thank you for your continued confidence in us as your supplier!

Riki A. Monk

General Manager
