

December 1, 2020

Dear Valued Customer,

Carlisle will increase the price of all Spray Foam Roofing systems shipped after January 1, 2021 by \$0.10 per pound, or as contracts allow.

This increase is required to offset sustained raw material cost pressure and to continue to be able to serve your product quality and service needs, especially in this challenging environment.

Your sales representative will contact you to explain this announcement in more detail and to answer any questions you may have.

We appreciate your business and look forward to a great year in 2021.

Best regards,

A handwritten signature in black ink, appearing to read "Wesley Sherrer".
