

March 15, 2024

Dear Valued Customer,

At Simpson Strong Tie, we strive to maintain stable pricing on all our products. Unfortunately, we have received notice of a substantial price increase on powder-actuated loads. Consequently, we find it necessary to pass along a portion of these additional costs. Effective May 15, 2024, pricing on domestically manufactured powder-actuated loads will increase by 11%, while a handful of pins will see a 3% increase.

Given the magnitude and timing of these increases, combined with the limited availability of inventory, we kindly request that customers align their orders with their historical purchases, and we reserve the option to decline new orders at pre-increase pricing.

We appreciate your understanding and continued support.

MATERIAL	Increase %	MATERIAL	Increase %
P22AC2	11.00%	P27SL4	11.00%
P22AC3	11.00%	P27SL5	11.00%
P22AC4	11.00%	P27SL6	11.00%
